COCKTAILS

H. Gates Lloyd was host to the film director and producer of Leonard Bernstein's musical drama "West Side Story," yesterday at his home in Georgetown.

The party was a get-together for members of the board of trustees of the Institute of Contemporary Arts and the Hollywood movie moguls who are here for the concert this evening in the State Department auditorium saluting the 16th anniversary of the United Nations.

Mrs. Lloyd, who is in Boston attending a UNESCO meeting, is chairman of the Women's Board of the Institute of Contemporary Arts and chairman of the Women's Committee for the film premiere at the Uptown Theater Nov. 14 for the benefit of the International Program of the Institute of Contemporary Arts. It will be a glittering premiere in honor of the Chiefs of Mission of the Diplomatic Corps.
